ABOUT ME

I thrive working on collaborative teams. It's a delight to work closely with clients and developers to craft web experiences from the ground up.

WORK EXPERIENCE

USER EXPERIENCE DEVELOPER

NC STATE UNIVERSITY | May 2018 - Present

- Responsible for designing interfaces, usability testing, and developing user documentation for ITECS' applications.
- Build front-end components using Vue.js and Vuetify.
- Analyze ITECS' WordPress themes for improvement, accessibility, and brand compliance.
- Provide technological solutions in new client consultations.
- Assist content creators with plugin or theme questions.

UI/UX DEVELOPER

NC STATE UNIVERSITY | Oct 2016 - May 2018

- Lead the UI/UX analysis, redesign and usability testing on custom-built Laravel-PHP applications.
- Lead business process review meetings for several projects.
- Build wireframes and high-fidelity prototypes.

BACK-END DEVELOPER

SPOONFLOWER | Apr 2016 - Jul 2016

- Built an internal CRUD app for the marketing team to implement tracking snippets for customer analytics.
- Used MySQL daily to restore files, update landing pages, and repair order items for the printing team.

CUSTOMER SERVICE ADVOCATE

SPOONFLOWER | Mar 2014 - Jan 2016

- Fielded customer inquiries via live chat and email.
- Assisted with improving patterns and printing results.
